## PROFESSIONAL EXPERIENCE

### Devops QA Engineer

Red Hat

10/2021 – present  
Bengaluru, India

Working as a Contributor to Red Hat Openshift product. Managing and contributing to the OpenShift Data Foundation, along with building the CI/CD operations and maintaining various release cycle of the OpenShift Data Foundation product. Also working as QA Engineer for Performance and Scale of Red Hat OpenShift Data Foundation.

### Capgemini

Associate Consultant

Single-Handedly developed a framework that provides Visio-style drag and drops node capabilities to make automation scripts without any coding.

10/2020 – 10/2021  
Bengaluru, India

Senior Analyst

I am an Automation engineer for an end to end automation in the public/private cloud using Python, Powershell.

10/2019 – 09/2020  
Bengaluru, India

- Providing VM related automation such as commissions, decommissions, health checks.
- Oracle Database related automation such as patching, backup, administration.
- ESXI host patching and upgrades using VMware PowerCLI.

Analyst

Worked as a VMware and Linux Administrator.

09/2018 – 10/2019  
Bengaluru, India

- I was responsible for maintenance of SUSE servers, quarterly/monthly SUSE servers Patching, SP migrations, and Server upgrades.
- I was responsible for Virtual Machine Commissions and Decommissions, VMware Storage, and Network administrations.

### Intern

Maharashtra Remote Sensing Applications Centre

11/2017 – 04/2018  
Nagpur, India

Created a project for monitoring and analyzing log files, to get a proactive approach on the errors and events occurring in the systems and servers at the organization.

## SKILLS

**Scripting** (Powershell, Bash) • **Cloud** (Azure, AWS) • **Programming** (Python, Go) • **Administration** (Linux, Windows)  
**SCM** (Git, BitBucket) • **Virtualization** (VMware) • **Containerization** (Docker) • **Frontend** (HTML, CSS)  
**Databases** (MySQL, Oracle, MongoDB) • **Backend** (NodeJS)

## AUTOMATION PROJECTS

- **ESXi Host Patching (VMware)** - Created an Automation to perform patching of the ESXi according to the baselines mentioned for the hosts.
- **Virtual Machine Commission (VMware/Azure)** - Created an Automation for creating a Virtual Machine in the Cloud Environment with the proper Memory, CPU, Storage, and Network Configurations as asked.
- **Virtual Machine Decommission (VMware/Azure)** - Created an Automation for creating a Virtual Machine in the Cloud Environment with the proper release of Memory, CPU, Storage, and Network after deletion.
- **User Creation and Role Assignment (Oracle/MySQL Database)** - Created an Automation for creating a user for the Database and providing proper roles and privileges to users.
- **User Creation and Role Assignment (Linux/Windows)** - Created an Automation for creating a user for the Database and providing proper roles and privileges to users.
- **Database Health check Report (Oracle)** - Created an Automation to perform a daily basis database health check and present it as an HTML report to clients.
- **Server Health Check Report (Linux/Windows)** - Created an Automation to perform a daily basis server health check and present it as an HTML report to clients.

## CERTIFICATES

---

Microsoft Azure Fundamentals [🔗](#) (AZ-900) • VMware vSphere 6.7 Foundations [🔗](#)

Microsoft Azure Developer Associate [🔗](#) (AZ-204)

## COURSES

---

Python for Everybody Specialization [🔗](#) 09/2020  
University of Michigan

Using Python to Interact With Operating System [🔗](#) 07/2020  
Google  
This show covers automating Operating System Operations with Python.

VMware vSphere: Install, Configure, Manage [V6.7] 09/2019  
VMware  
This course was for installation, configure, and how to manage VMware vSphere 6.7.

## INTERESTS

---

**Cooking** (*I love to cook, it's my stress reliever and I get to eat after that so it's more like a hobby for a hobby.*)

**Know something New** (*Always keen on understanding and learning new things.*)

**Play games** (*May it be indoors, outdoors or electronics always fun to play any.*)

## EDUCATION

---

**Bachelor of Engineering** 07/2014 – 05/2018  
G. H. Raisoni College of Engineering Nagpur, India  
Completed Electronics and Telecommunication Engineering with an overall CGPA of 8.54
